

## FAQs

# National Minorities Cultural Heritage Digitalisation Grants

### 1. What is the language of application?

Fill out the application in Ukrainian or English – whichever is more convenient for you.

Fill out the budget both in Ukrainian and English. You can use automatic translation.

### 2. Are there any restrictions on the types of objects for digitalisation?

No. We will support you in processing a collection of old prints, paintings, archaeological objects, or other culturally valuable monuments.

### 3. Is it possible to digitise a spatial object?

Yes, we will gladly support the digitisation of immovable cultural heritage.

### 4. How many projects will you support?

We cannot foresee the number of supported projects. It depends on how well you prepare your project and the winners' budgets.

### 5. What is a portfolio of completed projects?

Please briefly describe the project you are most proud of. This will allow us to better understand your team's capabilities and ensure that you will easily implement the project.

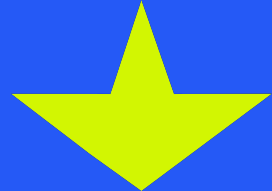

### 6. Can a newly created organization participate in the open call?

Sure! What matters is not the registration date, but your team's experience.

### 7. Can a municipal institution apply?

Yes. Feel free to apply if your institution is non-profit and its activities aim to preserve and popularise cultural heritage.

**8. Can a project manager work simultaneously as a digital specialist?**

No, combining administrative work with other roles in a project cannot be supported.

**9. What are the limitations on the remuneration of team members?**

We aim to digitise cultural heritage, saving it from the effects of time, war, and oversight. Therefore, most of the costs should cover this work or procurement. Plan the payment of specialists' services according to the project's needs, focusing on the average market cost.

Project managers, accountants, and other administrative teammates can receive remuneration of up to EUR 500 for the entire project, including all taxes.

**10. Should an audit report be included? Can these costs be budgeted?**

There is no need for an audit report. If your project requires an auditor, please justify this in your budget.

**11. We forgot to attach an important document, and the deadline has passed. Can we send the document by email?**

Unfortunately, no. Make sure to save the application and documents to apply to the next wave of Cultural Heritage Digitalisation Grants or another grant – we add new opportunities to [our website](#) weekly.
